STEERING & SUSPENSION

MOOG is the Problem Solver!

By constantly introducing design enhancements that extend product life or simplify installation and replacement, MOOG has earned its reputation as the chassis industry's problem solver for over 100 years. Excellence never quits with MOOG Chassis Parts!

Problem-solving innovations are made with the technician in mind, leading to long-lasting chassis parts that are designed, tested and manufactured for easy installation and long-lasting performance!

MEVOTECH CHASSIS

Experience faster and easier installs with **Mevotech Labor Saver™ Chassis Parts**. Spend Less time in the bay with innovative part components, added hardware and installation tools included in the box!

Reinforced Design – Voids are filled-in for optimal assembly strength and engineered for increased durability for all service conditions!

X-Factor High Performance Upgrades –

Get maximum service life, increased durability and premium performance from components that feature engineered enhancements and patented technology.

MacPherson
Ride Control

STRUTS

MacPherson Struts offer premium quality at value pricing. Engineered based on OE.

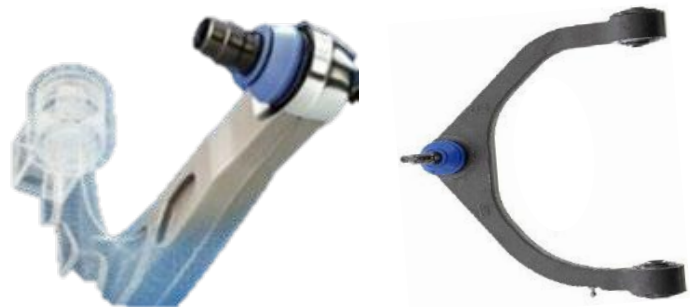

Endurance tested to ensure optimal performance & long life. Precision OE technology, design and hardware. Each assembly contains 100% new componentry including new springs, struts, mounts & hardware.

Restores vehicle to ride “as good as new!”

MEVOTECH CONTROL ARMS

Innovation You Can Trust to Keep You Moving!

- **X-Factor Design** – For maximum service life and durability, engineered to keep your vehicle performing longer!
- **Bi-Metallic Control Arms** - Exclusive patented technology which allows for a ball joint featuring sintered metal bearings to be threaded into a unitized aluminum control arm.
- **Rigorous Testing** – Extensive in-house and third-party durability testing ensures ultimate performance and strength.
- **OE Form, Fit, & Function** – Lowest defect rates with the best coverage!

PREMIUM FULL LINE CHASSIS & CONTROL ARMS

KICK-ASS PRICING
LOWERED JUST FOR YOU!

- Ultra-Guard™ corrosion coating prevents build up of harmful contaminants.
- Pre-loaded with high-quality lubricating grease
- Improved boot design and material with all-season performance.
- Coated hardware included for quick install
- Comprehensive steering, suspension and wide control arm assembly coverage for all popular makes and models.
- Exceptional value and easier installation which delivers reliable performance!

Purchase MacPherson Chassis through

and be entered to win one of **20**
\$100 Snap-on Tools Gift Cards!

DEFLATION! \$105^{97*}

Passing Along Lower Factory Rotor Pricing to You!

INCLUDING ALL **PREMIUM FRICTION** BRAKE BUNDLES!!

**Some Exclusions Apply— See Your EAPW Salesperson for Details.*

PERFECTSTOP Brake Pads

Engineered and made in North America!

- Advance Transfer layer technology for optimal braking performance
- Multilayer Shim restores every vehicle to its optimal braking performance
- Hardware for 99% of vehicles in operation

POWERSTOP EVOLUTION PLUS Brake Pads

PRECISION MADE TO FIT YOUR VEHICLE!

Positive mold technology delivers consistent wear and performance while the powder coated backing plate resists rust and corrosion.

Centric Posi Quiet

Dependable Performance!

Advanced Friction Materials:
Engineered to eliminate noise and vibration while delivering optimal stopping performance.

Performance Tested:
Dynamometer and vehicle testing ensures superior stopping performance, noise and wear

PERFECTSTOP ROTORS

PerfectStop Rotors are Engineered to match OE fit, form, and function to the specifications originally designed for the vehicle! PerfectStop Rotors meet or exceed the industry's strictest safety, performance & physical standards.

- Armor-Plate™ Anti-Corrosion Coating**
On all Non-Friction surfaces for improved corrosion resistance.
- Cross-cut™ Surface Finish**
For improved pad seating & break-in
- Precision Engineered**
For reduced vibration and superior stopping power

PERFECT STOP CALIPERS

- ✓ **Armor-Plate Anti-Corrosion Coating**
 - E-Coat dip process provides **Inside & Out** protection for the caliper and its critical surfaces.
- ✓ **Production Life Cycle Testing**
 - The first caliper in production performs as well as the last.
- ✓ **Proprietary Piston Movement Test**
 - Ensures proper functioning pistons for every installation.

- True Direct-Fit OE Connectors & Harness.

- Refined zirconia elements improves sensor response.

EAPW is Your Source for O2 SENSORS!

- Dual-Coated Platinum element for increased longevity!

- Leads are guaranteed to be no more than 2" longer than the OEM design.

UPCOMING TRADE SHOWS

Talk the latest trends and products of the Automotive Industry presented by the Industry Leading Brands! **Over 50 Manufacturers represented!** Food and beverages served all evening! More than 50 manufacturers will be present with new products, contests, door prizes and more!
Over \$5,000 in GIFT CARDS and PRIZES will be given away! Scan the QR Code to Register!

IN-PERSON TECHNICIAN TRAINING!

FORD AND CHRYSLER COMPUTER CONTROLLED CHARGING SYSTEMS

This class covers late model Ford & Chrysler Computer Controlled Charging Systems. In this class you will learn how the Ford & Chrysler systems function and how to accurately test and diagnose these systems. You will also learn descriptions of Alternator Circuits, evolutions of Chrysler PCM controlled charging systems, control of field current on Chrysler charging systems, and learn to navigate both Ford "Smart Charge" 1st & 2nd version systems.

mpa Taught by MPA!
